Benefit

Removable internal glass

Easy cleaning of the oven door thanks to the removable glass

Ever Clean Enamel Interior

Cleaning made easy thanks to the special antacid lining

Ever Clean enamel is electrostatically applied from corner to corner and edge to edge to prevent cracking and cracking over time.

It is an acid-resistant enamel that, in addition to being aesthetically pleasing, promotes greater cleaning of the oven walls due to its lower porosity.

To ensure uniform depth and strength, it is baked at temperatures above 850 ° C and slowly polymerized at a scientifically determined rate.

Ever Clean enamel creates an impeccable finish both inside the oven and on the trays, making the oven surfaces incredibly easy to maintain over time by reducing fat adhesion during cooking.

Rapid pre-heating

Rapid pre-heating reduces cooking cavity heating time by up to 50%, so you can start cooking faster.
