

### Command water. At a touch

There are more exciting things to do than watching water boil. The 7000 SenseBoil® Induction Hob detects rising bubbles and automatically reduces to a low simmer. So the focus can be fine-tuning those flavours and mastering that menu.

## Product Benefits & Features

### Boiling water, under control with the Boil Sensor

The Boil Sensor detects rising bubbles and automatically adjusts the temperature settings, reducing it to a controlled simmer. No more monitoring. Saving both time and energy.

### Hob2Hood®: The hands-free hood

The Hob2Hood® function connects the hob and the hood. The cooker hood automatically adjusts the fan speed based on the heat, without lifting a finger. For powerful extraction when searing. And quieter extraction when simmering.

### 4 Individual Zone Controls. Unlimited cooking options

4 Individual Zone Controls, with 9 power levels, allow you to Individually control 4 different cooking areas and set separate timers for each. Other functions include power boost, active touch, child lock and automatic extractor control.

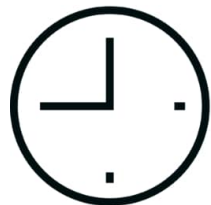

### Quicker heat for extra speed with PowerBoost

A blast of fast. No more waiting around for pots to boil. The PowerBoost function gives you an instant burst of heat. PowerBoost is perfect for tasks that require you to boil a large pot of water quickly.

### Hob timer. Built for precision

The built in hob timer can be set up to one hour, and will automatically power the hob down when it elapses. For effortlessly precise results.

- Hob2Hood®: Allows you to control the cooker hood via your hob.
- PowerBoost: Gives an instant increase in temperature allowing water to boil in less than 90 seconds.
- Bridging function: Combines 2 cooking zones allowing flexibility for any size pan.

- Pause functionality allows you to take short breaks without losing your cooking settings.
- OptiFix™: Only one step to install the hob.
- EcoTimer™: Saves energy by using the residual heat from the hob, turning off the cooking zone before the end of your timer to boost efficiency.
- SenseBoil®: Detects rising bubbles and adjusts temperature to a simmer, preventing boil-overs whilst saving time and energy.
- Child lock safety function.
- Minute Minder
- Individual Zone Timers: Set a separate timer for each cooking zone on your hob.
