

SI2M7953D

Product Family	Hob
Built-in type	Ultra-low profile or Fully Flushed
Dimensions	90 cm
Power supply	Electric
Type	Induction
EAN code	8017709258948

Aesthetics

Colour	Black
Finishing	Glass
Aesthetics	Universale
Material	Glass
Glass type	Ceramic
Glass edge	Straight edge
Type of control setting	Multi Slider
Slider	Yes
LED colours	Red
Control knob position	Front
Serigraphy colour	Grey

Programs / Functions

Total no. of cook zones	5
No. of induction cook zones	5
No. of cooking zones with booster	5
No. of Flexible zones	2
Main on/off switch	Yes
Power levels	14
Auto-Vent	Yes

Options

Multizone Option	Yes	Minute minder	5
Flexible Zone Type	MultiZone	End of cooking alarm	Yes
Standard cut out	490x880 mm	Residual time indicator	Yes
End cooking timer	5	Control Lock / Child Safety	Yes
Pause option	Yes	Rapid level selection	Yes

Technical Features

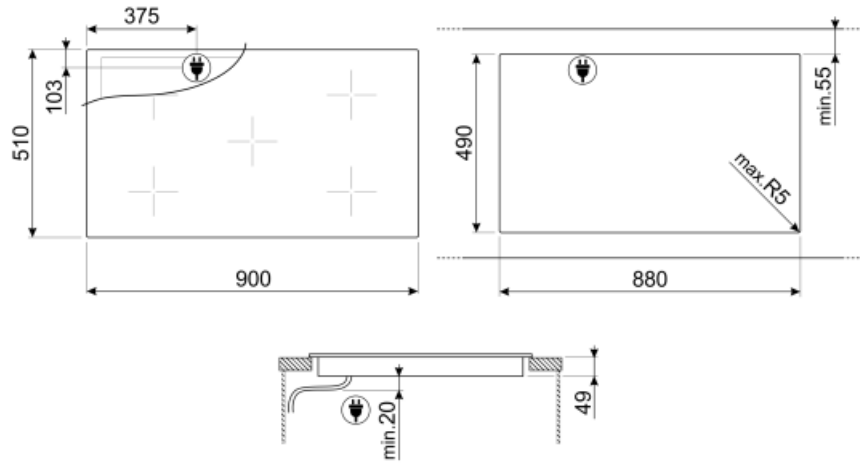

Front-left - Induction - Multizone - 2.30 kW - Booster 3.20 kW - Ø 21 cm
 Rear-left - Induction - Multizone - 2.30 kW - Booster 3.20 kW - Ø 21 cm
 Central - Induction - Giant - 1.80 - 2.80 kW - Booster 3.50 - 3.70 kW - Ø 18/28 cm
 Front-right - Induction - Multizone - 2.30 kW - Booster 3.20 kW - Ø 21 cm
 Rear-right - Induction - Multizone - 2.30 kW - Booster 3.20 kW - Ø 21 cm
 392x195 mm

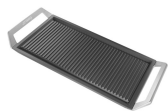

Automatic setting according to pan dimension	Yes	Automatic switch off when overflow	Yes
pan detection	Yes	Eco-Heat	Yes
Minimum pan diameter indication	Yes	Eco-Off	Yes
Automatic switch off when overheat	Yes		
Eco-Off	Yes	Eco-Heat	Yes

Electrical Connection

Electrical connection rating (W)	7350 W	Type of electric cable	Universal
Current	33 A	Frequency (Hz)	50/60 Hz
Voltage (V)	220-240 V	Power supply cable length	150 cm
Voltage 2 (V)	400 V	Terminal box	5 poles

Not included accessories

GRIDDLE

Universal griddle for induction, gas, radiant hobs and bbq. Non-stick surface.

SCRP

Induction and ceramic hobs and teppanyaki scraper

TPK

Stainless steel grill plate to cook Teppanyaki dishes

Symbols glossary (TT)

 <p>A smart infrared system, which allows a hood and hob with this feature to work together.</p>	 <p>Power booster: option allows the zone to work at full power when very intense cooking is necessary.</p>
 <p>Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.</p>	 <p>The slider control panel allows you to adjust the power simply by passing your finger across the touch device.</p>
 <p>Eco-Heat: this function warns when the zone is still hot after being switched off. As well as ensuring maximum safety by preventing burns, this also allows you to make use of residual heat to continue cooking or keep foods hot.</p>	 <p>Eco-Off: This energy-saving function shuts the zone down before the timer sounds, making use of the residual heat in the pan.</p>
 <p>Giant zone: The giant zone offers extra space and flexibility.</p>	 <p>Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.</p>
 <p>Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.</p>	 <p>Multizone: allows several pans to be used at once, large or small, offering freedom of placement and greater flexibility</p>
 <p>Overflow protection: The special overflow protection shuts down the stove in the presence of overflow of liquids.</p>	 <p>PAUSE_72dpi</p>
 <p>Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).</p>	 <p>Time elapsed: shows how long the cooking zone has been in use.</p>
 <p>Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.</p>
