

Assisted cooking for perfect results

The SenseBoil & Fry smart cooking sensors automatically adjust the heat to prevent overboiling and provide the ideal amount of heat to prepare your meal. Outstanding results and energy savings – whether boiling pasta or searing a steak.

Product Benefits & Features

Assisted cooking with SenseBoil & Fry

SenseBoil & Fry smart cooking sensors are the perfect assistant in the kitchen. The stove will automatically adjust to the right temperature and prevent overboiling – whether you're frying eggs or simmering a stew.

Modern, matt black beauty. Our most scratch-resistant surface

A modern design statement at the heart of your kitchen. The SaphirMatt® hob's matt black finish enhances its minimalist aesthetic. Made with our most scratch-resistant, fingerprint-resistant surface for lasting, effortless beauty.

Flexible cooking with the Bridge Function

The Bridge Function allows you to connect two separate cooking zones to create a large, unified cooking area. This means even heat distribution is created over the entire surface – ideal for bigger pots or plancha grill.

Hob2Hood® keeps your kitchen fresh at all times

The Hob2Hood® function seamlessly connects your hob to the hood, for a fresh kitchen atmosphere every time you cook. The fan automatically adjusts the speed to remove unwanted odours, so you can focus on preparing your dish.

PowerBoost your cooking

The PowerBoost function provides an instant heat burst to get your dish ready in no time. Ideal when you need to boil water quickly, stir-fry vegetables or even sear fish or meat.

- SaphirMatt®: Our most scratch-resistant hob in elegant matt black.
- Hob2Hood®: Allows you to control the cooker hood via your hob.
- PowerBoost: Gives an instant increase in temperature allowing water to boil in less than 90 seconds.
- Bridging function: Combines 2 cooking zones allowing flexibility for any size pan.

- Pause functionality allows you to take short breaks without losing your cooking settings.
- OptiFix™: Only one step to install the hob.
- EcoTimer™: Saves energy by using the residual heat from the hob, turning off the cooking zone before the end of your timer to boost efficiency.
- Child lock safety function.
- Minute Minder
- Individual Zone Timers: Set a separate timer for each cooking zone on your hob.

Product Specification

| | | | |
|----------------------------------|--|-------------------------------|----------------------|
| Series | 8000 | Frame Type | Bevelled 2 Sides |
| Main Colour | Matt Black | Hob Safety | Automatic Switch Off |
| Plug or Hardwired | Hardwired connection only | Total Electricity Loading (W) | 7350 |
| Dimensions (mm) (WxD) | 780x520 | Net Weight (Kg) | 12.96 |
| Built-in Dimensions (mm) (HxWxD) | 44x750x490 | Gross Weight (Kg) | 14.02 |
| Cord Length (m) | N/A | | |
