

#### Can help reduce food waste by 28%\*

The 8000 Cooling 360° Fridge Freezer has multiple air channels to deliver consistent cooling. This protects food on every shelf and can help to reduce food waste by 28%\*. Stainless steel creates an elegant, premium look for your kitchen.

\*Compared to 500 ColdSense refrigerator. Based on external tests on duration of edibility of soft cheese and cooked ham stored on shelves. Results may vary depending on type of foods. Estimated potential food waste reduction based on appliance performance only and not considering user behavior.

### Product Benefits & Features

#### Every corner. Thoroughly chilled. With Cooling 360°

The specially designed system circulates cool air into every corner. Real stainless-steel back, brings a premium design, while cooling down faster after door opening. Confidently protecting the rich texture of each ingredient.

#### New-era innovation. Unique fridge-freezer with recycled plastic\*

A new era of cooling is here. Introducing our fridge-freezer with an inner lining made of 70% recycled plastic. Plastic from discarded refrigerators is used to make new refrigerators, helping reduce waste through circularity.

\*Inner liner rHIPS made with up to 70% recycled plastic representing 13% of total fridge plastic\*

#### GreenZone+ helps fruits and veggies stay nutritious

GreenZone+ keeps fruits and vegetables fresher for longer with an automatic humidity membrane. The high-performance drawer creates an ideal environment to preserve nutrients and flavour while preventing excess moisture and drying out.

#### TwinTech® No Frost - keeps food juicy and hydrated

TwinTech® No Frost has an advanced dual cooling system for the fridge and freezer. This technology ensures the freezer stays frost-free and the fridge humidity optimal, preventing the food from drying out.

#### ExtraChill drawer. For delicate ingredients

An additional pull-out drawer designed for organizing and storing delicate foods such as cheeses and cold cuts. It maintains a lower temperature than the rest of the fridge due to active circulation of cold air.

- TwinTech® NoFrost: Dual cooling keeps humidity in the fridge to prevent food from drying out, while the freezer stays frost-free.
- Cooling 360°: With stable temperature and consistent humidity to protect food quality.
- GreenZone+ drawer: This closed vegetable drawer automatically regulates the humidity level using a special membrane, to keep food fresh for longer.
- Extra cool: The temperature drops for a set time to quickly chill large amounts of food, then returns to normal—ideal for parties or BBQs.
- ExtraChill drawer: A drawer that's cooler than the rest of the fridge—ideal for meat, fish, and cheese.
- Open Door Signal: Visible & audible.
- Flexi-Space: Removable glass shelves in freezer compartment.
- Sliding fittings: Attach a matching cupboard door, using sliding rails and cabinet-hinges.
- Designed and manufactured in Europe by AEG.
